## New Library Update

With Easter, end of school activities and the rummage sale, we have slowed down on our remodel project. This next week we will kick it back in high gear. We need to finish hanging the sheetrock, applying texture, and start the painting process. We will also tile the bathroom walls, and of course, closer to the end of the project, put down flooring.

The electrical is close to being completed. Our circulation desk, record style book shelves and benches for seating are all being custom built. We have also ordered more shelving to match what we currently are using.

We are excited to see the transformation of the building into something we all can be proud of and can't wait to move in. We are predicting this will happen in August since summer reading will keep us busy for the next two months. We greatly appreciate all the donations of money, time and materials and feel humbled by the outpouring of community support.

Follow us for all the latest news and updates. *Leslie*

Time to dream big...what books, series, genres or subjects would you like to see us carry? Leave us a Facebook message so we can start a list.

It has been suggested that we need a library pet. I am not opposed to this idea, but some thought needs to be put into the selection of the perfect pet so... nothing that would freak certain patrons out or cause allergies. From my perspective, it also has to be easy to care for with no special equipment (lights, heaters, etc). Some ideas that have been presented are hermit crabs, tree frogs, miniature pig, etc. What are your thoughts?

## Shelf Sponsors Wanted

With a new library three times larger than our current space, we need more bookshelves.

Would you like to sponsor a section of shelving in your family's name?

In memory of a loved one?

Or for your organization?

We will have a donation plaque listing all our sponsors.

**\$300 per 3' section**

## June 26

A gang of thieves stage a daring heist from a secure vault deep below Princeton University's Firestone Library. Their loot is priceless, but Princeton has insured it for twenty-five million dollars.

Bruce Cable owns a popular bookstore in the sleepy resort town of Santa Rosa on Camino Island in Florida. He makes his real money, though, as a prominent dealer in rare books. Very few people know that he occasionally dabbles in the black market of stolen books and manuscripts.

Mercer Mann is a young novelist with a severe case of writer's block who has recently been laid off from her teaching position. She is approached by an elegant, mysterious woman working for an even more mysterious company. A generous offer of money convinces Mercer to go undercover and infiltrate Bruce Cable's circle of literary friends, ideally getting close enough to him to learn his secrets.
